

## ONECALL SOLUTIONS:

### COST MANAGEMENT

Our optimization software saves our clients, on average, 25% off their monthly invoices, and 45% off lifecycle costs.

### VENDOR MANAGEMENT

We communicate with your wireless carriers on your behalf and assist you with negotiating contracts and discounts.

### DEVICE MANAGEMENT

Our software maintains your wireless assets and associates them to the end users, departments, and cost centers.

### SECURITY MANAGEMENT

We help you implement security measures to prevent loss of confidential information. We also create policies and procedures and recommend 3<sup>rd</sup>-party security software.

### EMPLOYEE MANAGEMENT

We offer a full service help desk to assist your employees with everyday wireless issues.

# OneCall Cost Management

## Optimize Your Wireless Spending

### The Challenge

Are you frustrated because your wireless expenses are getting out of control? Is your usage increasing, yet you have no way to understand it or control it? The carriers' invoices are so difficult to understand, which makes it challenging to know how to reduce the expenditures. You turn to your carriers for help, but hours on the phone with them result in more frustrations. You know there has to be a way to stop the outflow of critical dollars.

There are many factors contributing to the difficulties in managing your wireless expenses:

- Carrier invoices are so complex that it can take days to review them.
- Carriers change service plan and feature pricing constantly, making it difficult to keep pace with the best deals.
- Wireless technologies change frequently.

### OneCall Cost Management Solutions

OneCall provides two products to help you quickly and effectively solve this critical challenge—**OneCall Maximizer** and **OneCall Reconciliation**.

#### OneCall Maximizer

OneCall Maximizer provides you with immediate savings off your wireless invoices. Because you don't pay unless we find you savings, there is no risk in utilizing this product.

- Optimizes your wireless invoices without changing your carriers.
- Provides reports to identify areas of savings.
- Recommends ways to lower the cost of your overall wireless invoices.

- Contacts your carriers to implement recommendations.

#### OneCall Reconciliation

As your company grows, your wireless usage changes dynamically, and it is important to monitor your usage monthly to ensure your wireless expenses are kept under control.

- Tracks your changes against the carriers' invoices to ensure billing is correct.
- Monitors your employee's usage behaviors and trend them over time.
- Understands whether a new wireless technology benefits your organization because we know your usage pattern.
- Provides monthly usage and spend reports.

#### About OneCall

OneCall offers a SaaS-based software suite to help business customers easily and efficiently manage employees' use of cell phones and other wireless devices while containing related charges from wireless carriers. Our proprietary software automates analysis, reporting and expense management and facilitates related consulting and helpdesk services. Without **changing carriers, devices, or employee usage patterns**, a customer can achieve almost immediate payback for our fees and normally recognize savings of 25% to 45% from its existing wireless carrier charges and related management costs.

**We help our clients do more with less!**
